

## ESTATE AGENT PRO ENTERPRISE ADDITIONAL INFORMATION

**Estate Agent Pro Enterprise incorporates a new multi-user diary similar to that used in Microsoft Outlook. In fact it can be synchronised with Microsoft Outlook. Appointments are also automatically synchronised between branches. The diary supports all-day appointments and recurring appointments complete with an alarm facility. Appointments can also be assigned to multiple users. There is also a task list that is automatically carried forward to the next day if not marked as completed.**

Throughout January 2010 Pair Software will be notifying you of a selection of new features available in Estate Agent Pro Enterprise. Installations will commence this month on a first come first served basis so, the sooner you notify us of your intention to upgrade, the sooner we can book an installation slot for you.

If you do not wish to receive these newsletters, simply reply to this email and set the subject to Unsubscribe.

Appointments and tasks can be assigned to any member of staff in any branch and, because of the near real-time synchronisation methodology used in Estate Agent Pro Enterprise, they will be visible to the user almost immediately. Accompanied viewings and valuations are automatically added to the diary.

**New monthly pricing structure per branch: 1 branch £200 \* 2-4 branches £150 \* 5-9 branches £125 \* 10+ branches £100 (10% discount to existing users)**
