

ESTATE AGENT PRO ENTERPRISE ADDITIONAL INFORMATION

The Custom Reports Module was chargeable. It is now included free in Estate Agent Pro Enterprise. This module can be used to create any reports that are not included in EAP or are, but you wish to customise them. Reports can either be graphical (as shown) or tabular. They can be any size and can include your own calculations. All data that is in Estate Agent Pro Enterprise can be reported on. Various wizards are available to simplify the creation of reports. Once created they can be saved as a PDF and emailed.

If the custom report is based on properties, it can also be generated from within the Estate Agent Pro Enterprise internal reports screen. In this scenario it will only include those properties that are in the current include list e.g. you can filter down to only those properties you wish to display in your custom report. Whilst the creation of some reports can be relatively simple, more complex reports will require a certain level of expertise to be able to achieve the desired results.

New monthly pricing structure per branch: 1 branch £200 * 2-4 branches £150 * 5-9 branches £125 * 10+ branches £100 (10% discount to existing users)
